

Andrea Barrandeguy

FULL-STACK DEVELOPER

Tallinn, Estonia | +372 5611-9340 | andreabarrandeguy@gmail.com

SUMMARY

Currently working as a developer, and also enjoying building applications of my own and trying new technologies. Having worked across team leadership and project management, I bring a unique perspective and proven ability to handle projects from conception through completion.

SKILLS

- HTML, CSS and JavaScript
- Python, Django and SQL
- React and TypeScript
- OpenAI and Anthropic APIs
- Scrum methodology
- English/Spanish C2 | Estonian A1

EDUCATION

- CS50: Introduction to Computer Science | Harvard University **May 2023 - Dec 2023**
- Web Development | Coder House **Mar 2023 - May 2023**

PROFESSIONAL EXPERIENCE

Software Developer, Erply (Estonia)

Apr 2025 - Present

- Building in GoERP, Erply's Go-based templating engine.
- Co-designed and developed SalonKeep, a booking and management platform for service businesses, with a built-in point of sale and customizable online booking.
- Independently developed the RIK e-Catalog Integration, syncing Erply product data with Estonia's public procurement platform.
- Optimized an inherited Global Sales Report with a nightly sync of pre-aggregated daily data, cutting query time from four minutes to two seconds, and redesigned the dashboard.
- Leading sprint meetings with the development team and communicating directly with clients on progress and results.

Career break for professional development and relocation

Jun 2023 - Apr 2025

- Completed Harvard's CS50 (Introduction to Computer Science), building a foundation in HTML, CSS, JavaScript, Python and Django.
- Developed three original web apps: Chromatik (image color editor), Room (2-party Q&A game) and Pixly (daily photo challenge social network).

Project Development Manager, Lenovo (Argentina)

May 2019 - Jun 2023

- Managed complex projects, often integrating technical and development aspects.
- Collaborated with teams worldwide, gaining experience in cross-functional tech environments.
- Transformed business needs into professional-looking tools (using SQL, PowerBi, and QlikSense) by researching source systems and designing dashboards and control boards.

Services Registration Manager, Lenovo (Argentina)

Jan 2016 - May 2019

- Team organization and skill development.
- Monthly operational reviews and action plans.
- Process improvement & Customer Journey Mapping.
